

Asma Parveen

Mathematics Teacher

As a mathematics teacher, I am passionate about inspiring and engaging students to develop a love for mathematics. With 22 years of teaching experience, I have a proven track record of helping students achieve their academic goals while fostering critical thinking skills and problem-solving abilities. My expertise in calculus, linear algebra, geometry, probability & statistics allows me to effectively communicate complex concepts to students of all levels. I am dedicated to creating a positive and inclusive learning environment where all students feel supported and motivated to reach their full potential.

- 2000-2005
Govt School Of Excellence
Senior Teacher
5 years of experience in School of excellence as a Senior Science and Mathematics teacher .

Extra-Curriculum Duties

As an educator, I believe that extra-curricular activities play an important role in shaping a student's holistic development. In addition to my teaching experience, I have been actively involved in various extra-curricular activities related to events and sports. As a faculty advisor for the Student Council, I have worked with student leaders to plan and organize various events, such as the spring festival, seminars, and cultural events. These events have not only provided students with opportunities to showcase their talents and creativity but have also helped them develop leadership and organizational skills.
